Get Rid Of Stretch Marks

Now use a base coat of liquid make up that well matches your skin tone. Apply as you normally would, but donâ€™t work it in too much. The liquid make-up can eventually remove the concealer if you work it too much. Smooth out the entire base make-up by using a compact puff. Use an eyeliner to outline the ridge of the bottom eyelid.

This should do it Ladiifre...If it is a fresh black eye then you might can slice a potatoe and put on it and draw the swelling and stuff out. Or put a ice pack on it and it well slow the blood flow making it less black. Also put on make up and maybe buy a pair of glasses that will help cover it a lil if you get some big ones.
